

Integrated Faculty & Student Insights

Align Faculty Activities to Student Outcomes

Your faculty has a direct impact on student experience. Now you can connect your faculty activities to student outcomes for a **holistic, data-rich view of campus activity**. Discover actionable insights to drive student success, curriculum effectiveness, and accreditation compliance, **powered by our partnership with [PeopleAdmin](#)**.

Boost Student Performance & Curriculum Quality

Identify curriculum gaps and at-risk students. Ensure curriculum aligns with programmatic outcomes and that students obtain timely support.

Hassle-Free Accreditation Compliance

Simplify assessment and accreditation with a tool that enables effective collaboration and documentation around action plans to help drive better outcomes.

Balance Faculty Commitments

Create direct line-of-sight into faculty workload balanced between teaching, research, and service, tied to any impact on student outcomes.

Unlock the Potential of Your Data

Manual data manipulation wastes time, especially when your data is spread across isolated systems. Automatically pull data into one centralized system of intelligence.

Actionable Insights

- Admissions
- Academic Advising
- Longitudinal student outcomes evaluation
- Curricular effectiveness and gap analysis
- Management of assessment, accreditation, and strategic plan activities

Program Specialties

- Pharmacy Schools
- Medical Schools
- Colleges of Osteopathic Medicine
- Physician Assistant Programs
- Nursing Schools
- And many more

Turn your data into actionable insights by connecting student outcomes to faculty activities.
